Panorama LASIK

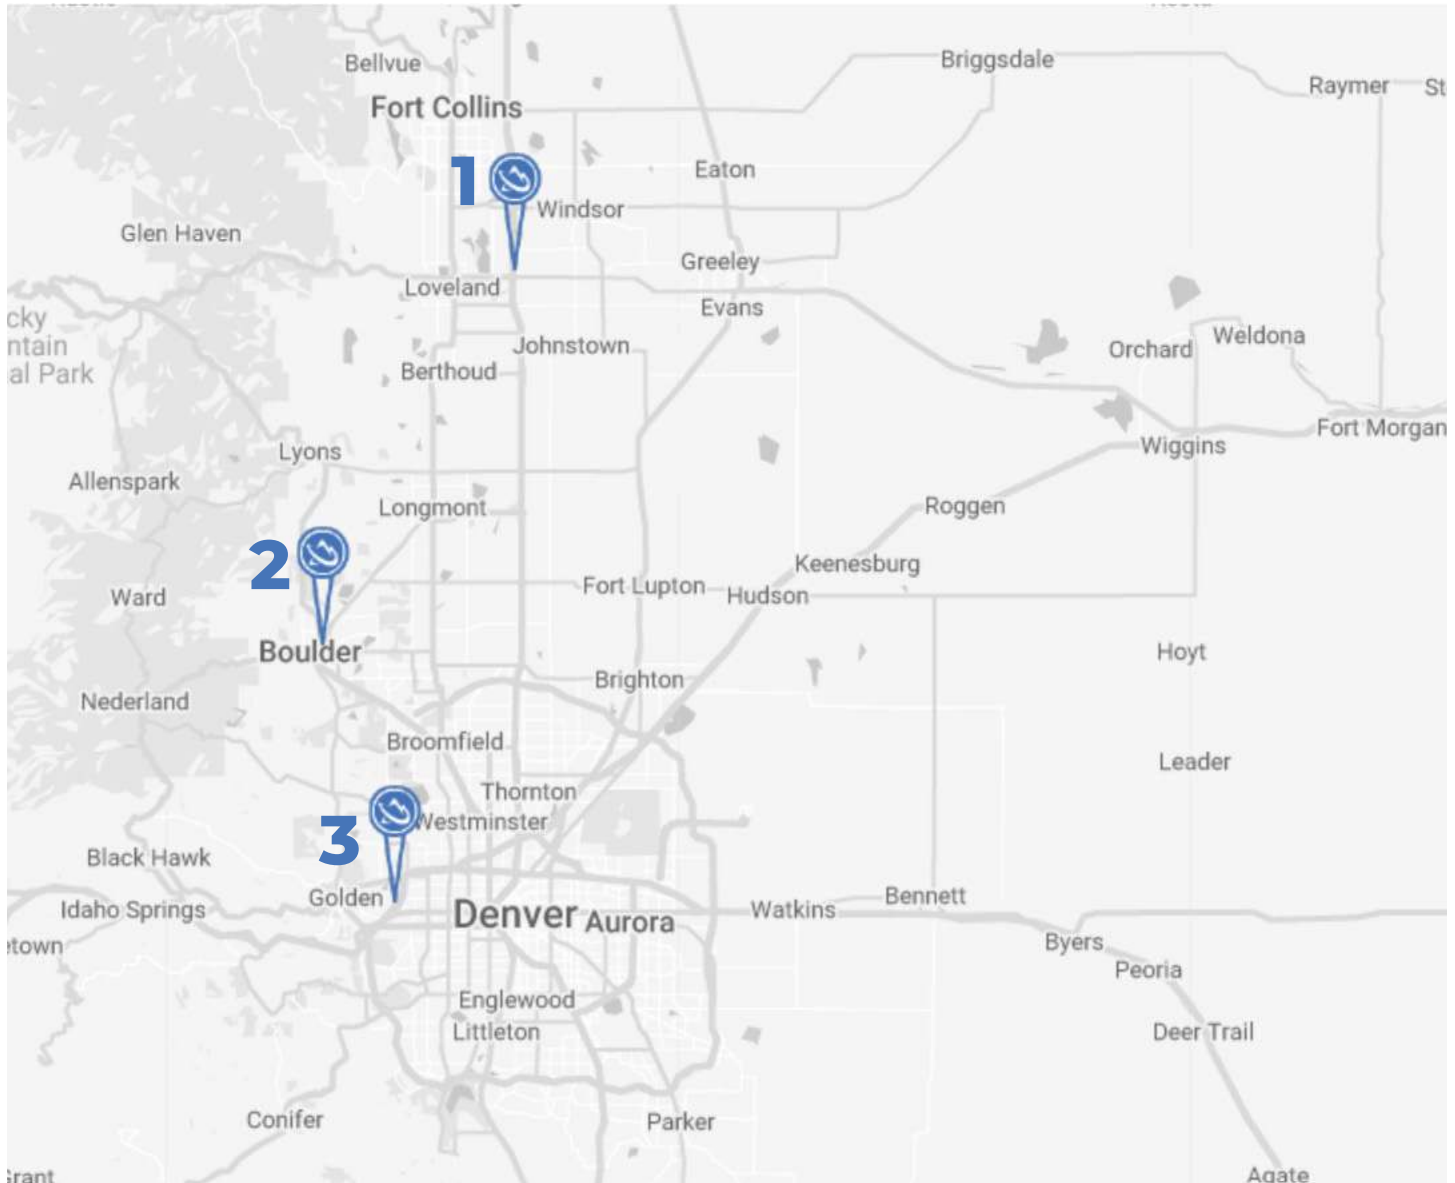

At Panorama LASIK, a partnership of Colorado's premier laser vision correction surgeons, we value the opportunity to share in the surgical eye care of your patients and appreciate the trust that you place in us. We offer a variety of elective vision correction procedures to best suit the patient's lifestyle needs. To best serve your patients who need a referral, please review the following packet of information for our current referral and comanaged care protocols. Included you will find the following:

1. A resource list for any needs from our team
2. Ways to refer your patients and send notes securely
3. Comanaged care protocols
4. What you can expect from our office
5. Patient education and resources for their referral

We strive to keep an open line of communication with your office throughout the care of your patients, and we always welcome your feedback. Thank you for entrusting the care of your patients to our team at Panorama LASIK.

*Sincerely,
Our Team at Panorama LASIK*

Our Locations

1 970-221-2343

Comanaged Care with CoFi

We have partnered with CoFi, a tool for handling co-management fees for elective vision correction procedures. With CoFi, the patient pays Panorama LASIK and your practice separately, through one single, convenient payment event for the patient, right at our office.

This means you are paid upfront, at the same time we are, and the patient has a much better payment experience. CoFi eliminates both the hassle of receiving checks and questions about the status of payments and ensures the fees are handled compliantly. In addition, you have visibility into active and past comanagement payments through CoFi.

If your office intends to comanage care with our team, you must be enrolled with CoFi – If you would like to schedule a time for Cofi implementation, please contact John at CoFi: john@cofimd.com

Comanaged Care Fees

The following list of fees for services are subject to fair market value confirmation.

Laser Vision Correction & Refractive Services

LASIK, PRK, SMILE	\$950 <i>Bilateral</i>	180 Days
EVO Visian ICL	\$950 <i>Bilateral</i>	180 Days
Refractive Lens Exchange <i>Monofocal</i>	\$250 <i>Per Eye</i>	180 Days
Refractive Lens Exchange <i>Multifocal</i>	\$375 <i>Per Eye</i>	180 Days

Laser Vision Correction Comanagement What To Expect

PRE-OPERATIVE

What you do...

- **Send us your referral** *see page 4*
- **Include most recent exam notes** including corneal thickness and topography

What we do...

- Review surgical options with your patient
- Confirm the patient's intent to comanage
- Review fees and included benefits with your patient
- Determine which laser vision correction procedure best fits the patient's needs
- If the patient chooses to have their post-operative care managed by you, contact your office to coordinate all post-operative care
- Send you surgical notes and post-operative plans

POST-OPERATIVE

What you do...

- **Review Op Note Summary**
- **Perform Post-Op exam.** Please note **manifest refraction** and **anterior segment slit lamp findings**, in addition to any testing you feel necessary
- **Send Post-Op reports** after each visit via Phreesia connect, online portal, direct address, or fax
- **Contact us** as needed with any additional surgical questions

Expected Post-Operative Testing*

- Manifest Refraction
- Anterior Segment Slit Lamp Exam
- Evaluation of ocular health
- Dryness evaluation
- Topography (if post-op irregularity is suspected)

**Suggested post-op schedule of 1 day, 1 week, 1 month, 3 months, and 6 months.*

**Panorama
LASIK**

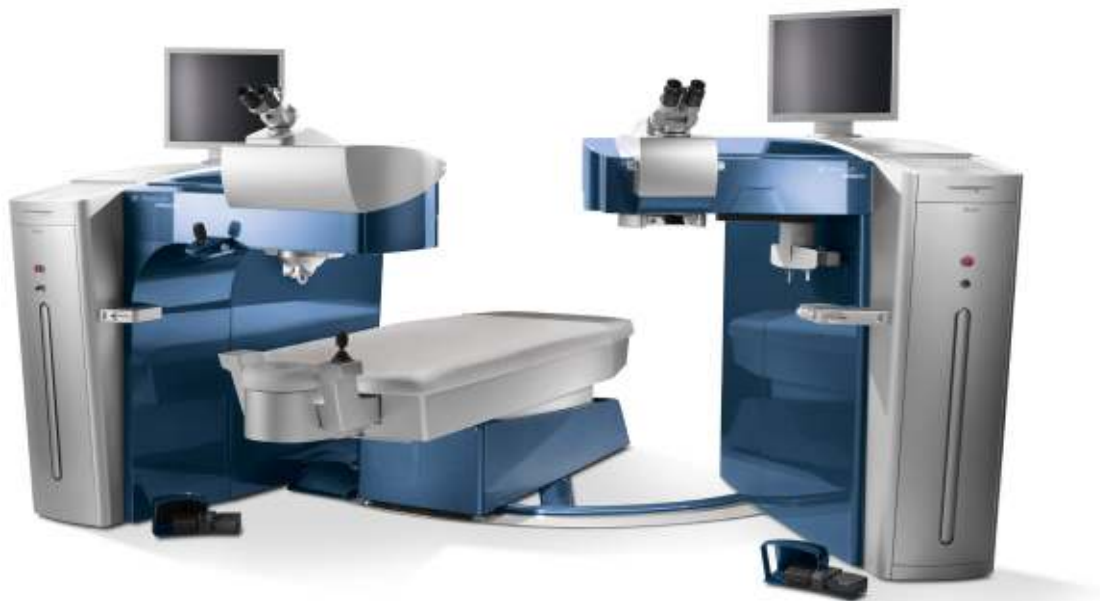

Vision Correction Procedures

**Contoura™ Vision LASIK | ReLEx SMILE™* | PRK
Refractive Lens Exchange | EVO Vision ICL**

With multiple laser platforms and elective vision correction procedures available, our surgeons have the flexibility to select the right technology to correct vision imperfections with greater accuracy and safety.

Our entire laser vision correction experience is customized from start to finish to deliver unprecedented accuracy.

*ReLEx SMILE™ only available at our Panorama LASIK at Eye Center of Northern Colorado location.

We utilize today's most advanced FDA approved technology:

Wavelight® EX500 Excimer Laser
Wavelight® FS200 Femtosecond Laser
